PERSONAL PROFILE

A BS Information Systems graduate with hands on experience in front-end development and basic back-end integration. Skilled in building responsive user interfaces, implementing interactive features, and connecting UI to databases or APIs. Familiar with troubleshooting, system setup, and version control tools. Strong communication skills and committed to delivering user-friendly, efficient web solutions.

PROJECTS EXPERIENCE

WEB-BASE APPLICATION AND MONITORING SYSTEM FOR THE GOVERNMENT HOUSING PROJECT

Developer & System Architect - Php, Mysql, Html, Css, Js   *March 2024 - Feb 2025*

· Independently developed a web-based application and monitoring system for the Government Housing Project as a capstone project. The system streamlined housing application tracking and document management. Presented at Capstone Fiesta, showcasing its real world impact. Handled full-stack development, user training, and system deployment

KARGAMOTO ANGKAS MOBILE APP

Front-End Developer - ReactNative, MongoDB   *January 2025 - June 2025*

· Developed and maintained the mobile app's front-end interface, focusing on a user-friendly experience for riders and clients. Implemented features that clearly display billing statements and transaction details, helping users understand cost savings from reduced processing fees.

HOSPITAL MANAGEMENT

Developer & System Architect - React, Html, Css, Mysql   *May 2024 - August 2024*

· Independently designed and developed a hospital management system to streamline patient records, appointment scheduling, and staff coordination. Handled both front-end and back-end development, ensuring a secure, user-friendly interface. Implemented email support features for automated communication and issue tracking.

JOB APPLICATION TRACKER

Developer & System Architect - React, Html, Css, Mysql   *May 2025 - june 2025*

· Independently developed a job application tracking system to help users manage applications, monitor status updates, and organize required documents. Built and integrated both front-end and back-end components.

WORK EXPERIENCE / ON- THE-JOB TRAINING

Crave Technology Enterpris

Front-end Developer   *January 2025 - June 2025*

· Designed and developed the front-end of the Kargamoto Angkas mobile app, focusing on creating a responsive and user-friendly interface. Handled the visual design, layout, and implementation of features to enhance user experience. Worked closely with basic back-end functions to ensure smooth data flow and app performance across mobile devices.
